

FEELING STRESSED?

How would you describe your “soil”
at the present moment?

We are always becoming good soil as we let the Lord
tend to us. What areas of your life are you not
allowing Him cultivate with love?

The Lord cultivates to our soil in stages, diligently
developing us through practices like daily prayer and
keeping a holy hour. What practice can you adopt to
help turn your interior posture toward the Lord?

God is invested in our growth to give us purpose and
an abundant life. Take a minute to share what you
would like a day look like spent with the Lord?
What would be different?
